

## **Requirements to ready-made mediums to be installed on Crocus Expo IEC structures**

### **Banners for Tritex structures:**

- Banner size matching the size of the structure: 1x2,8 m / 2x2 m / 2,2x2,5 m, etc.
- Density: minimum 440 g/m<sup>2</sup>.
- Processed: reinforced edge, eyelets fixed on the perimeter at 20-30 sm interval.

### **Banners for structures on concrete blocks:**

- Banner size matching the size of the structure: 2x3 m / 4x3 m / 6x3 m, etc.
- Density: minimum 510 g/m<sup>2</sup>.
- Processed: reinforced edge, eyelets fixed on the perimeter at 20-30 sm interval.

### **Flags:**

- Material: polyester, satin and other fabrics. Light weight materials are preferable (polyester).
- Processed: a) for outdoor flagpoles – two loops (one side); b) for indoor flagpoles – partition at the top and loop at the bottom.
